How do I organise services with Blue Care?

Your village manager can arrange a visit by the local Blue Care team. With centres across 80 communities, we are just around the corner. We will work with your village manager to coordinate on site 'clinics' which will include carers, nurses and allied health professionals – all providing dedicated services to Eureka residents.

Can I get care immediately or do I have to wait for an assessment?

The good news is, you can get care immediately – you don't have to wait for an assessment. If you want to apply for subsidised care, you can still receive services immediately while you wait for an assessment through the Australian Government. Our team can talk to you about the assessment process, work with you to apply for subsidised support services and if needed, arrange immediate support for you.
